Clean Air Victory: Hospitals Lead on Clean Construction

Starting in January, Novant Health and Carolinas HealthCare System will begin implementation of clean construction practices to limit pollution on construction sites. While new construction equipment meets low emission standards, there are many older pieces of equipment used in the region that produce high levels of diesel exhaust.

Action Alert: How would you spend a \$92 million settlement to reduce air pollution?

Clean air depends on a clean transportation system. It's time to change the way we move our kids, ourselves, and our goods from place to place. Help Clean Air Carolina support investment in zero-emission vehicles to help improve North Carolina's environment, economy and the health of our most vulnerable communities by weighing in on the Volkswagen settlement.

NC BREATHE 2018 Announced with Call for Posters

We are pleased to announce a Call for Abstracts for research poster presentations for the 2018 NC BREATHE Conference. The conference will focus on the theme of *“Connecting Air Quality to Community Health”* and will be held on March 8, 2018, in Winston-Salem. It will feature research on the impacts of air quality and climate change on health, economics, and the environment. **The deadline for abstract submission is midnight February 8, 2018.**

NC is 'leading the check' on Atlantic Coast Pipeline

If you haven't heard yet, the Atlantic Coast Pipeline is not a done deal in North Carolina. Recently, Duke Energy and Dominion Energy spoke of the likelihood that the Atlantic Coast Pipeline (ACP) will soon begin pumping fracked shale gas from West Virginia and points north into North Carolina. As advocates, Clean Air Carolina supports maximizing investment in energy efficiency and renewable energy over any more investment in fossil fuels or infrastructure for fossil fuels that pose real threats to our health, the environment, and the economy.

EVENTS

March 1 - 2 UNC Clean Tech Summit

UNC Friday Center, Chapel Hill. The 5th Annual Summit will bring together attendees and speakers from business, government, agriculture, and academia to explore key issues in clean tech with keynotes, discussions, workshops, mentoring and networking to foster leadership and growth in the Southeast's clean tech industry.

March 8 - NC BREATHE 2018 Conference

Bowman Gray Medical Center at Wake Forest University, Winston-Salem.

NC BREATHE provides an interactive forum for North Carolinians to share the latest research related to the impacts air pollution has on human health, the environment, and the economy, and to discuss the critical role policymaking plays. This year's theme is *Connecting air quality and community health.*
